

# NSV PROUDLY PRESENTS

# CONTACT

## is revolutionary.

... because it's just fun!

In the game, you track a mysterious signal of which you know neither the origin nor the source. It will lead you to a specific planet. Instead of space coordinates you only receive a strange set of flight commands for your spaceship. Can you use these to work out the correct target planet? And what will you find when you get there?

CONTACT is a cooperative deep space adventure that provides more than just science fiction.

# Qwixx ON BOARD NEW

... because it's just fun!

The prize-winning original version of Qwixx is great. And now, with a game board, it offers even more playing possibilities! What is more, the original rules remain completely the same. Move your pieces forward, occupy spaces, tactically cross out numbers, avoid misrolls – and complete the game point by point. Amazing.

A must for all fans of Qwixx!

# The Mind Extreme

If you're a fan of our award-winning best-seller THE MIND, you should definitely try EXTREME. The original rules are exactly the same but time now runs twice as fast, synchronised and in the opposite direction. There are two stacks that have to be played simultaneously, one ascending, one descending and some levels even blind.

# Kippelino

... because it's just fun!

Together you have to build a tree house, ever higher, step by step. And since the raven architects' plans have to be adhered to at all costs, the whole thing quickly becomes quite wobbly. But it is possible – if you keep a cool head and have a steady hand!

Balance and fine motor skills – a great building game for kids and grown-ups!
